RUBRICS FOR PROJECT

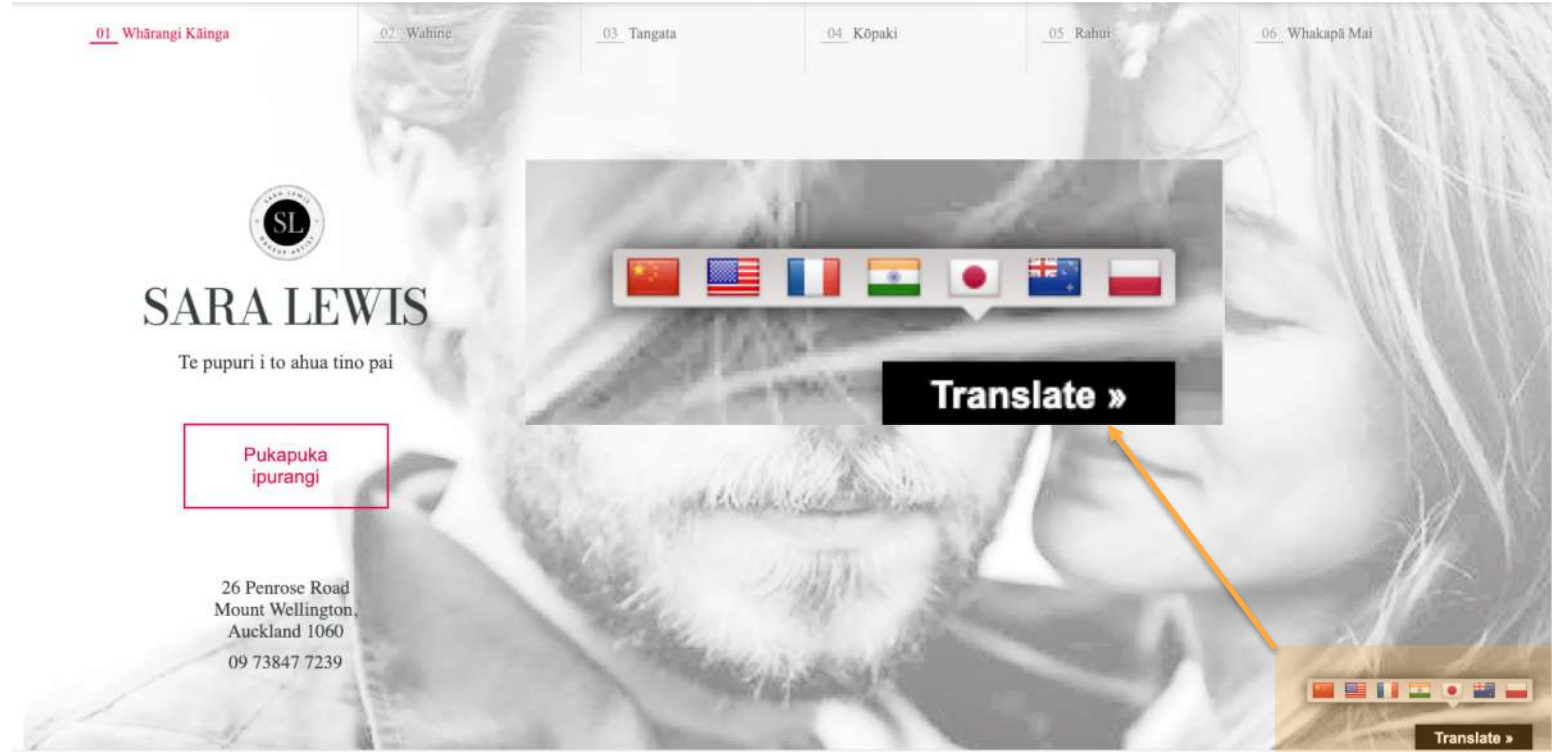

IDENTIFYING THE CULTURAL/SOCIOLOGI CAL ISSUES

Treaty of Waitangi

New Zealand is becoming increasingly diverse, digital services need to be inclusive of all cultural backgrounds and perspectives.

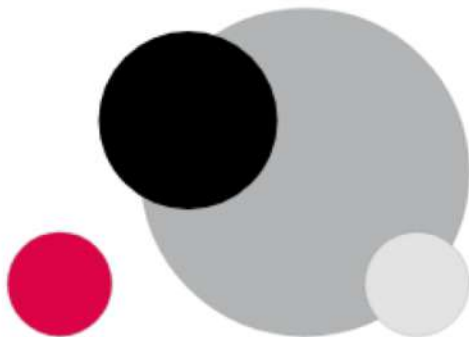

Services have to be culturally inclusive; particularly in reference to Te reo Māori and Tikanga concepts. services are available in **languages fit for the customer needs.**

XD ASSETS

IMPLEMENTING THEMES AND PLUGINS

HTML | CSS | JS

ANIMATE.CSS

This was also used for subtle animations like having the page items fade in when you land on every page, I implemented animate.css to add more dimension to the site.

MACY.JS

Macy.js is a lightweight dependency-free JavaScript library designed to sort items vertically into columns by finding an optimum layout with a minimum height. implement masonry layout in “portfolio” page.

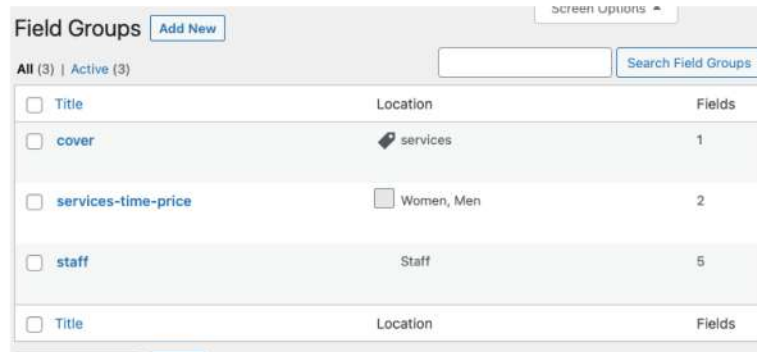

ADVANCED CUSTOM FIELDS

1. Add cover-image for Taxonomy services
2. Add times and prices for each custom service post
3. Add more information for custom staff post

ACCORDION BLOCKS

Gutenberg blocks for creating responsive accordion drop-downs for F&A section in 'Contact us' page

WORDPRESS PLUGINS

All-in-One WP Migration

This plugin is used to Import and Export site data.

Google Language Translator

this plugin adds google translator to website language switcher as widget be shown in every page bottom.

Contact Form 7

I installed Contact Form 7 to create the 'contact us' forms on website because it is an extremely straightforward method of maintaining this kind of content

Bookly

Bookly Plugin – is a great easy-to-use and easy-to-manage booking tool for service providers.

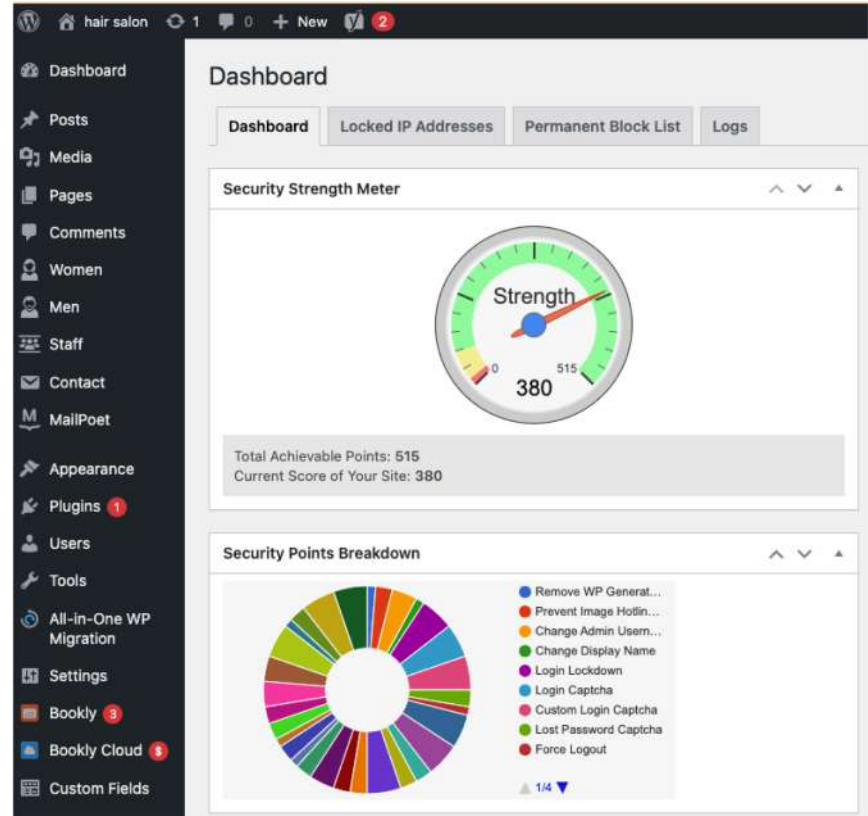

Yoast SEO

To help improve website search rating Yoast SEO was used to optimise the site to help improve its ranking

WORDPRESS PLUGINS

All In One WP Security

Best practices for CMS security

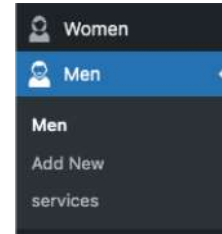

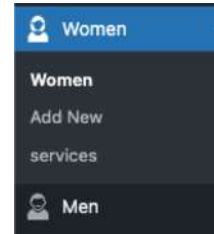

PRODUCE A CMSCUSTOM THEME

SERVICES CATEGORY

General Page Content - Gutenberg Blocks

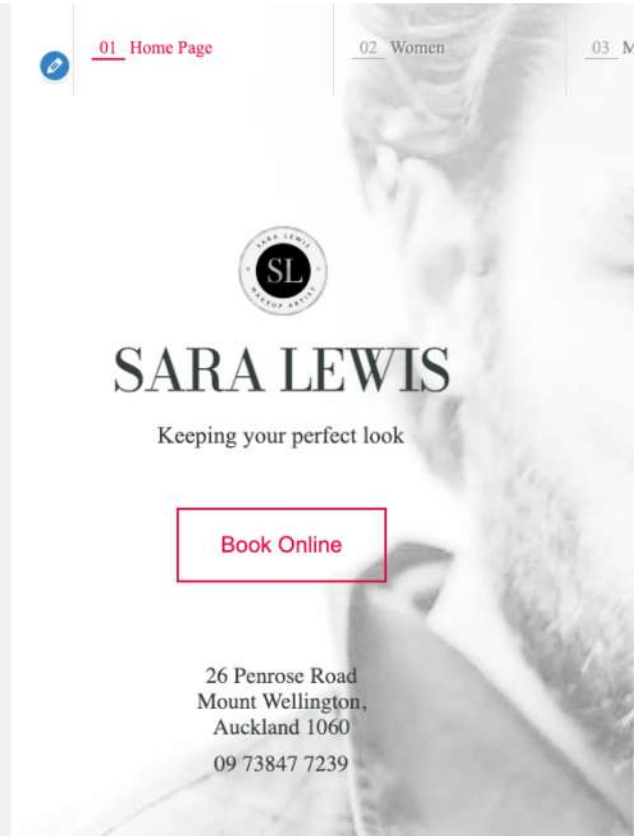

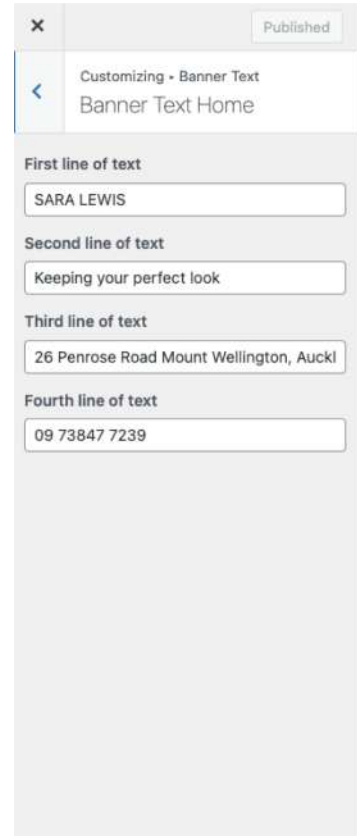

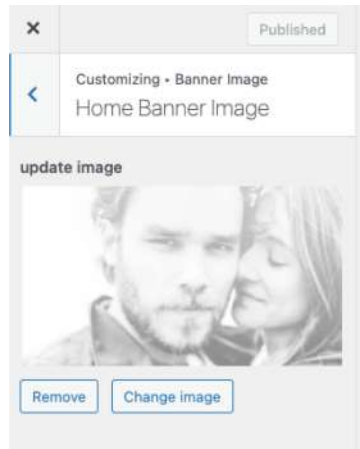

Customise service information - Using a custom post type

BANNER SECTIONS

Customise text information in Banner -
Using global customiser

Customise Banner image - Update image
using global customiser

CMSCUSTOM THEME

STAFF

Customise staff information - Using a custom post type

The screenshot displays the WordPress dashboard for a user named 'Howdy, admin'. The left sidebar menu includes options like Dashboard, Posts, Media, Pages, Comments, Women, Men, Staff (selected), Contact, MailPoet, Appearance, Plugins (1), Users, Tools, All-in-One WP Migration, and Settings. The main content area is titled 'Staff' and features a table of staff members. The table has columns for Title, Name, Date, and a status column with red and grey dots. The staff members listed are Danielle, Matt, Mackenzie, Kara, logo, and CHETAN MONGIA, all with a status of 'Published' and a date of 2022/06/12. The interface also includes a 'Bulk actions' dropdown, a 'Filter' button, and a 'Search Posts' button.

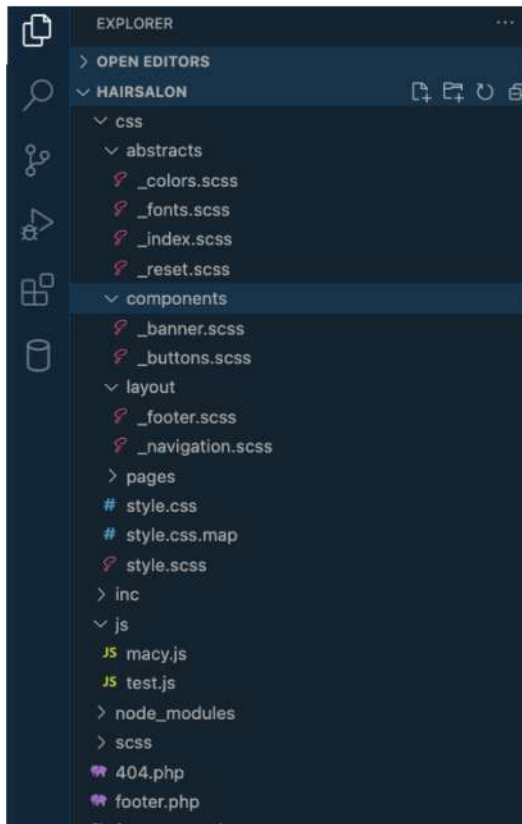

Title	Date	Status
Danielle	Published 2022/06/12 at 10:18 pm	0
Matt	Published 2022/06/12 at 10:17 pm	0
Mackenzie	Published 2022/06/12 at 10:15 pm	0
Kara	Published 2022/06/12 at 10:13 pm	0
logo	Published 2022/06/12 at 10:12 pm	0
CHETAN MONGIA	Published 2022/06/12 at 10:11 pm	0

CUSTOMISING SERVER SIDE CODE

SCSS

with variables and nesting, coding more quick than CSS and I really like this because it is a lot more streamlined, organized, and helps properly nest things making file sizes a bit smaller.

SCSS | CSS | JS

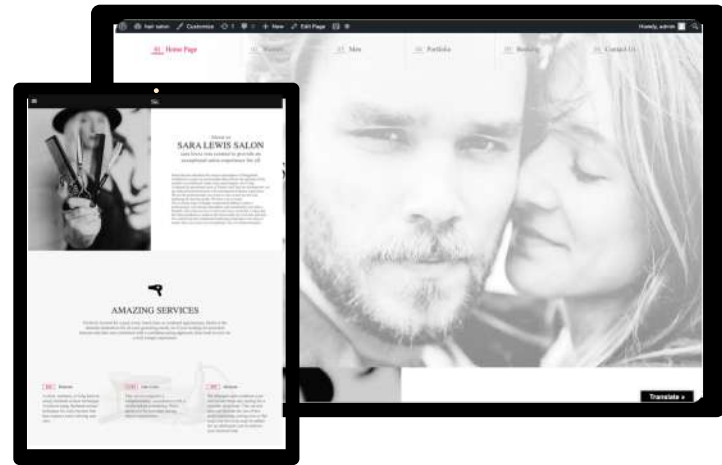

WebP

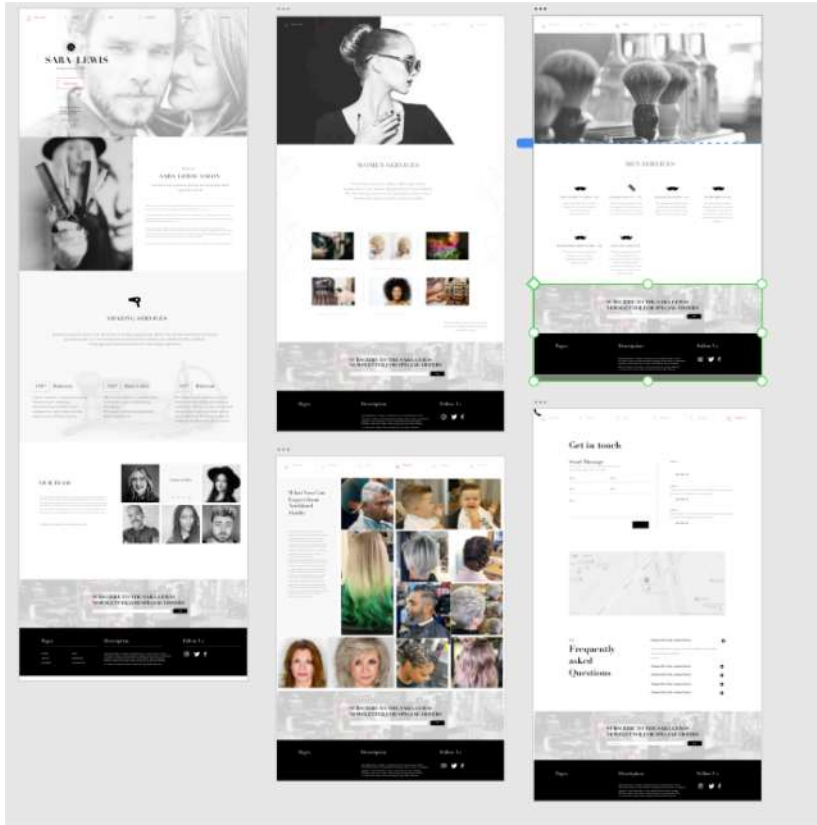

faster websites consuming less bandwidth. That makes site's visitors happy, and it also makes Google happy—they now explicitly favor fast websites over slow ones in their search rankings.

VIEWPORT COMPATIBILITY

RESPONSIVE BREAKPOINTS

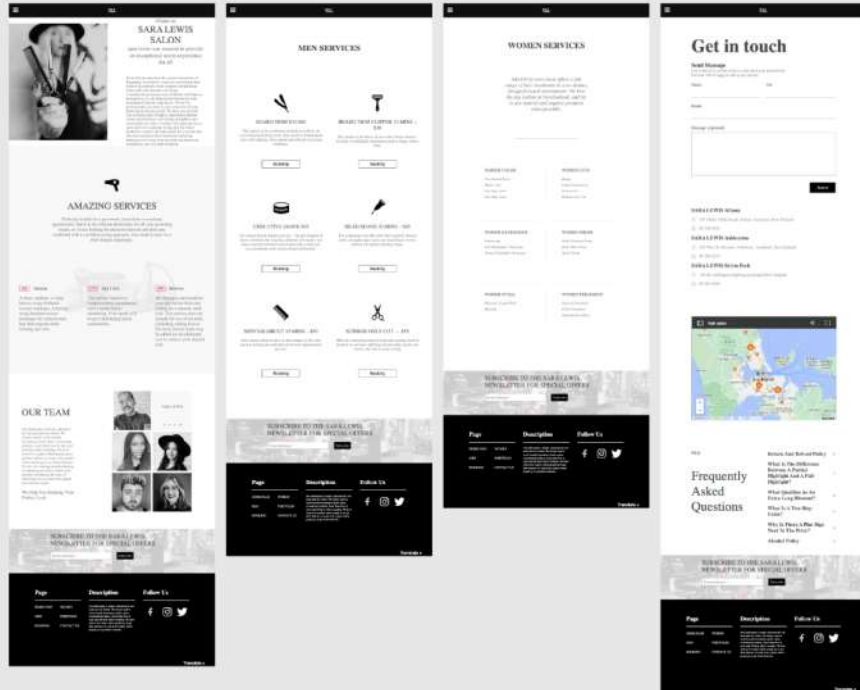

LARGE DEVICE/DESKTOP:

The large device view allows for the text animation and the banner page text animation

During development the website was tested on both Mac and Windows Pc throughout the process. It was also tested in Chrome and Firefox on both platforms.

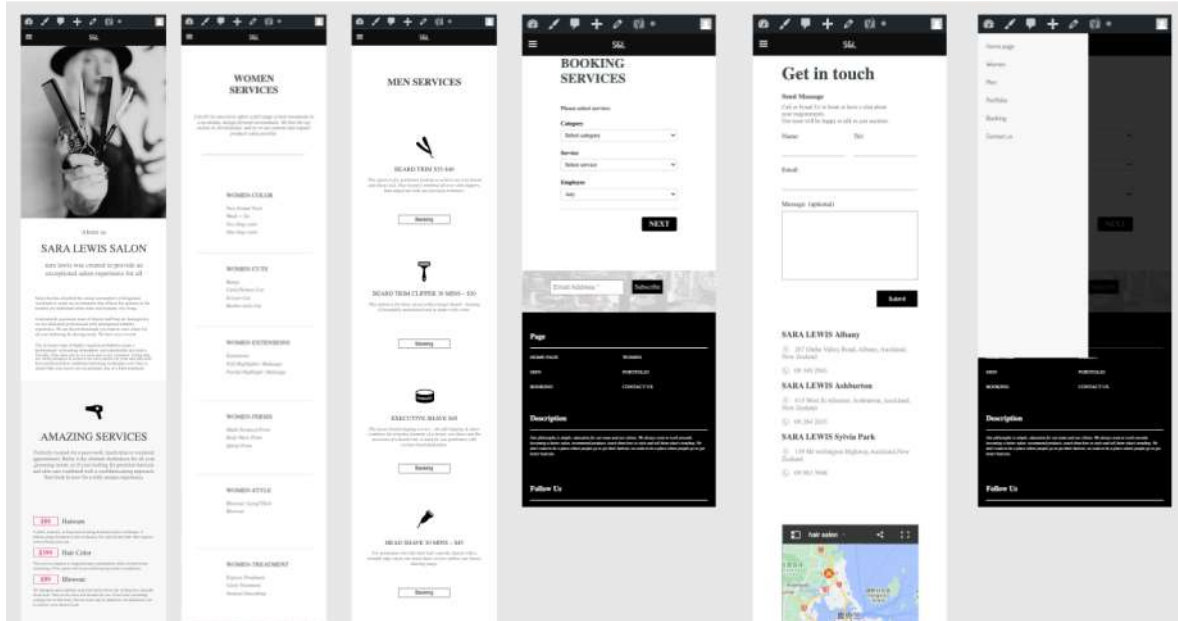

RESPONSIVE BREAKPOINTS

TABLET :

The portrait tablet view is the same as mobile except for the team page that has a flex on the more items containers to make it responsive.

RESPONSIVE BREAKPOINTS

MOBILE DEVICE:

The website was also developed testing on Apple and Android mobile devices Iphone XR and Oneplus 3T in Chrome and Firefox mobile browsers.
